DEMOCRATS AT SARATOGA.

Nomination for Governor to
be Made Unanimous.

Grout a Leading Candidate
Early This Morning.

Santa Clara Democracy—
Tour for Fairbanks.

(BY THE ASSOCIATED PRESS—P.M.)

NEW YORK, Sept. 19.—[Exclusive Dispatch.] New York papers this morning, without exception, say that Shepard is out of the Governorship race. The 2 o'clock bulletins to the Herald, World, and American say that Grout, Herick, Palmer and Stanchfield are the only men left in the race, and that Grout leads. That Shepard is no longer considered as formidable a candidate as he was twenty-four hours ago is mainly due to the opposition of Senator Patrick H. McCarron of Brooklyn, who unequivocally committed to the support of Grout and is vehement in his opposition to Shepard.

Mr. Murphy still sticks by Palmer. Were he to assent to the demand for the nomination of Grout, which demand is spreading among the leaders and delegates tonight, Grout would be nominated beyond question. But Murphy still adheres to his idea that he can force the nomination of Palmer.

Mr. Palmer has not developed sufficient strength, in view of the other leaders, to warrant his selection. Senator Hill has been trying all night to bring Murphy to a proper understanding of the situation, but has not succeeded.

SARATOGA (N. Y.) Sept. 19.—

The majority of the 450 delegates who will constitute the Democratic State Convention to meet here at noon tomorrow are in Saratoga. The hotel streets and places of public resort are filled tonight with Democrats from all parts of the State, discussing the probable action of the convention. Since the arrival of former Senator David B. Hill and Patrick H. McCarron, and this afternoon of William F. Sheehan, August Belmont, former Senator Edward Murphy, Jr., and Charles F. Murphy, leader of Tammany Hall, conferences have been in progress almost constantly.

The net result of today's developments is the selection of Duncan Campbell Lee of Ithaca to be permanent chairman of the convention and George Raines of Rochester to be chairman of the Committee on Resolutions.

Otherwise, according to the most authoritative information obtainable tonight, the situation stands just as it stood last Thursday night, when Judge Parker left New York City after his series of conferences with various leaders, nothing having been announced as to the prospective candidates at that time. Conferences will be held so that the names of various candidates who have been mentioned may be weeded out, but it is thought probable that no final determination will be reached until close upon the beginning of the second day's session. If, indeed, the adherents of the several leading candidates do not find it necessary eventually to try out the strength of their forces in one or more ballots upon the State organization ticket. It is the general impression, however, that agreements will be reached and the question of the nomination for the Governorship settled in conference, so that only one name shall be presented to the delegates and the nomination be unanimous.

There is no diminution in the undecurrent feeling, which has been in evidence since the delegates began to gather, that unless some compromise becomes necessary the convention will result in the nomination of Edward M. Shepard of Brooklyn. The belief is prevalent that Shepard has the support of the national leaders, and that the delegates will follow the lead of the national leaders, and that the delegates will follow the lead of the national leaders, and that the delegates will follow the lead of the national leaders.

(BY THE ASSOCIATED PRESS—A.M.)

ST. PETERSBURG, Sept. 19.—The

answer to the American notes in re-

gard to contraband of war, as specifi-

cally raised in the case of the British

steamers Calchas and the Portland, and

the Asiatic line steamer Arabia (both

captured by the Vladivostok squad-

ron), the former was found to have

been carrying contraband of war, but

the latter was found to be carrying

only foodstuffs, and was therefore

exempt from seizure.

It follows generally the lines of the

reply to Great Britain, on the broad

principle of the immunity of in-

nocent trade with Japanese ports, but

she holds to her right to stop con-

traband destined for the use of the

Japanese military or naval forces.

The United States is informed, as

was Great Britain, that instructions

embodying the decision of the com-

missioners of the League of Nations

at Geneva, Sept. 19, 1918, have been

issued to the Japanese navy, and

that the Japanese navy is to be

instructed to stop contraband de-

stined for the use of the Japanese

military or naval forces.

But the mere fact that a consignment

of foodstuffs is intended for the

Japanese navy, or for the use of the

Japanese navy, does not make it

contraband, unless it is found to be

destined for the use of the Japanese

military or naval forces.

MILAN IN MOB HANDS.

Italian Anarchists Against Ending the Strike.

Lack of Force Reigns Throughout Peninsula.

New York Unions Fail to Order Building Strike.

(BY DIRECT WIRE TO THE TIMES.)

MILAN, Sept. 19.—[Exclusive Dispatch.] The labor exchange today decided the strike should come to an end, but the anarchists objected, insisting on the strike continuing until Wednesday and rejecting the collective request of the newspapers that they might recommence publication. The whole town is absolutely in the power of the mob. This morning shopkeepers and store proprietors rebelled conjointly and opened their places of business. This led to general disorders, as the strikers insisted on their closing.

Large detachments of cavalry and mounted police patrol the streets and disperse groups of strikers as soon as they become unruly. All theaters and places of amusement are closed. Things have gone so far that even the hotel omnibuses are stopped. Travelers going to the station are obliged to get out.

M. Gauthier, a well-known Frenchman of letters, who came here accompanied by his wife to discuss the publication of his work on "The Art of Luigi," has been obliged to go back to Lucerne, horrified at the abnormal state of affairs in Italy.

SITUATION IS IMPROVING.

(BY THE ASSOCIATED PRESS—A.M.)

ROME, Sept. 19.—[By Atlantic Cable.] The strike situation is improving. President Giolitti left today for Racconigi, Piedmont, to perform his official duty as crown notary of registering the birth of the Crown Prince. The workmen of the city resumed their normal activities.

The board of workmen has published a manifesto, saying it had planned a parade of all the Roman proletariat forces as a demonstration against the strike. At Palermo, the strikers and police were in collision during the day, and the former displayed a red flag. Disturbances also occurred in Genoa today, in which anarchists violently participated. They burned a number of street cars and destroyed the hoisted in honor of the birth of the Crown Prince.

Lack of bread led to the outbreak at Genoa.

MILAN, Sept. 19.—It has been decided to continue the general strike until Wednesday.

CAVALRY CHARGES CIVILIANS.

(BY THE ASSOCIATED PRESS—P.M.)

ROME, Sept. 19.—A meeting of workmen was held tonight to protest against the intervention of troops. Fully 10,000 persons participated, well-known anarchists taking part in the proceedings. The chief speaker was the revolutionary socialist deputy, Ferri, who delivered a violent address. The streets in the vicinity of the meeting were occupied by soldiers, including detachments of artillery. An attempt was made by the demonstrators to invade the center of the town, but the troops were dispersed by cavalry charges, in which about twenty civilians were wounded.

Conflicts in which a number of officers received injuries at the hands of the mobs occurred in Turin and Bologna.

The railway service is interrupted only north and south of Genoa. The strike has extended to Palermo and Leghorn.

ATTACKED A CONSULATE.

(BY THE ASSOCIATED PRESS—P.M.)

LUGANO (Switzerland) Sept. 19.—A meeting held here today to protest against the labor policy of the Italian ministry developed riotous proceedings. The rioters proceeded to the Italian consulate, from which they tore the Italian coat-of-arms and threw it into the lake.

NEW YORK UNIONS SCARED.

(BY THE ASSOCIATED PRESS—A.M.)

NEW YORK, Sept. 19.—Several unions, which were expected to meet Sunday and declare a strike against the Building Trades Employers' Association for its refusal to end the existing lockout against the Building Trades Alliance, failed to assemble. At the meeting of the Central Federated Union several leaders expressed themselves as being unfriendly toward the Italian strikers at the present time in this city.

Trainmen's Vote Not Completed.

CLEVELAND (O.) Sept. 19.—At the headquarters of the Brotherhood of Railway Trainmen here, it was stated today that, contrary to expectations, the canvass of the vote of its members relative to a strike on the Pennsylvania lines, west of Pittsburgh, had not been completed.

Carpenters in Convention.

MILWAUKEE, Sept. 19.—Five hundred delegates of the United Brotherhood of Carpenters and Joiners met in biennial convention here today. San Francisco, Indianapolis and Denver are contending for the next convention.

FIRE INTO BY NEGROES.

SAVANNAH (Ga.) Sept. 19.—The house of J. J. Bennett, a prominent farmer in Wayne county, was fired into by negroes late last night, and one of his nephews received a bullet in the crown of his head. Sheriff Overstreet, with bloodhounds, spent the night in the vicinity of the Bennett home, but failed to catch the marauders, but failed. The home of Bennett is virtually in a state of siege. He has been warned that he is a "marked man," and his neighbor have been called to protect him. The negroes have a grievance against Bennett for sending a negro preacher to the chain gang.

WAGGAMAN RESIGNS.

WASHINGTON, Sept. 19.—Thomas E. Waggoner has resigned his position as treasurer and a member of the board of trustees of the Catholic University. The resignation was tendered in response to a request contained in a letter to Waggoner signed by Cardinal Gibbons, the chancellor of the institution. It became effective September 1. It is thought that no action will be taken toward filling the vacancy under the next meeting of the board of trustees.

BARMUDEZ ASPHALT.

No Protest Sent to the State Department Against Sales Made by Gen. Castro's Receiver.

(BY THE ASSOCIATED PRESS—P.M.)

WASHINGTON, Sept. 19.—The State Department has not received any protest from the New York and Bermudez Asphalt Company against the sale in New York of asphalt mined from Bermudez Lake by Gen. Castro's receiver, further than the statement contained in the original brief and notice by the directors of the company to its stockholders. The notice extended to all ship owners, shippers, shipping agents and other persons who had any business with the asphalt company was wrongfully dispossessed of Lake Bermudez July 22 last, and that it will hold responsible in damages all persons who at any time or place receive, transport, deliver or dispose of any asphalt taken from the lake by persons other than the company's agents and employees.

The State Department will entertain and consider carefully any representations made by the asphalt company to show cause why it should take action to seize the asphalt which arrived in New York yesterday on the steamer Bennett, but the present view is that the matter is one that can be settled by the New York courts.

CARGO NOT SEIZED.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, Sept. 19.—[Exclusive Dispatch.] The attorneys for the General Asphalt Company failed to carry out today the threats they had made to have the cargo of asphalt of the steamship Kennet seized. The steamship docked at Long Island City, and is consigned to George W. S. Whitney, formerly of the Standard Asphalt Company, who is now in the hands of the receiver for the Bermudez Lake Works by the high Federal Court of Venezuela.

A statement was issued by the stockholders of the asphalt trust, today, asking the police to seize the asphalt.

The stockholders' interests by protesting against the sale of the asphalt.

The action of the President of Venezuela in having the receiver appointed as violent and illegal.

The receiver's publication of facts in the receiver's matter, and deplores the unfriendly attitude of Mack toward President Castro and the Venezuelan government.

OFFICERS GUILTY, SAYS THE JURY.

INVESTIGATION OF HORACE MAPLE LYNCHING ENDED.

Impachment of Mayor, Sheriff and Chief of Police and Reorganization of Police Force Are Recommended. Sending of Troops by the Governor Indorsed.

(BY THE ASSOCIATED PRESS—P.M.)

HUNTSVILLE (Ala.) Sept. 19.—The special grand jury which indicted the Horace Maple lynching, made its report tonight, recommending the impachment of Sheriff Augustus Rodgers, Mayor Thomas V. Smith and Chief of Police David B. Overton, and recommending that the police force of the city of Huntsville be reorganized. The grand jury finds that Sheriff Rodgers was guilty of neglect of duty and incompetency, in that he did not prevent the lynching, and failed to take proper precautions for the defense of the prisoner.

The jury finds that Mayor Smith was guilty of neglect of duty because he allowed a riotous mob to enter the city to throw the streets for hours, and failed to use proper means to disperse them, and failed to adopt any measures to preserve the peace of the city.

Chief Overton of the Police Department is charged with failure or refusal to carry out the duty of the police to carry aid to the Sheriff, upon the summons of that official, and adopting no effective measures for the prevention of the mob. The action of Gov. Cunningham in sending militia to preserve order is commended.

TOTEM KNOCKED IN BAKERSFIELD.

UNION CARDS THROWN OUT OF MOST SALOONS.

Fight Between Boycotting Gang and Citizens' Alliance Comes to Climax—Bartenders Walk Out and Proprietors Themselves Attend to the Wants of the Thirsty.

(BY DIRECT WIRE TO THE TIMES.)

BAKERSFIELD, Sept. 19.—[Exclusive Dispatch.] The fight between the labor unions and the Citizens' Alliance came to a climax this afternoon when the union cards were taken down from the windows of all the saloons in Bakersfield and Kern.

Following this action on the part of the proprietors of the places of liquid refreshment the union bartenders walked out. The result of the union men's attempt to force the proprietors to submit to their dictation. As a result the latter donned their aprons and throughout the city they are themselves attending to the wants of the thirsty.

Whipped into line by the pestiferous walking delegates the brewery drivers have refused to deliver beer to the saloons where the totem is not treated with reverence. No serious difficulty is expected on account of this refusal, however.

The trouble began with the employment by one firm of a man whose application for membership in the union was rejected, and the union men were called out and the place boycotted. The Citizens' Alliance avowed purpose is to introduce the open shop in all lines of business and this is an opening wedge.

Santa Fe Stockholders Meeting.

TOPEKA (Kan.) Sept. 19.—An official call has been issued for the ninth annual meeting of the stockholders of the Atchison, Topeka and Santa Fe Railway, to be held at Topeka October 27. The stockholders will be asked to confirm the lease and purchase of several outside roads. Four stockholders will also be elected.

NEW STEAMER STRIKES ROCKS.

GREAT HOLE IN STARBOARD BOW OF NORTHLAND.

Boat Was Bound for San Pedro, but About Mile South of Point Pinos Light Meets With Bad Accident—Sixteen Passengers Safe at Monterey.

(BY THE ASSOCIATED PRESS—P.M.)

PACIFIC GROVE, Sept. 19.—Steamer Northland, Capt. Samuel Bonfield, bound from Portland to San Pedro via San Francisco, went on the rocks about a mile south of Point Pinos lighthouse and about two miles from Pacific Grove at 2 o'clock in the morning.

The Northland left San Francisco at 3 o'clock yesterday afternoon and was about to have put into Monterey with 200,000 feet of lumber consigned to Healy, Tibbets & Co. for use in the construction of the Colima Oil and Transportation Company's wharf there.

Peter Hedol, the first mate, was in command when the vessel hit the rocks, and Capt. Bonfield explains the mishap by saying that the mate mistook the lighthouse for that at Santa Cruz, and went to the wrong side of it. The night was clear and the moon was shining brightly when the accident occurred.

The Northland was going at full speed when she struck, and a great hole was made in her starboard bow. Perfect order prevailed both among the passengers and crew and after jetting the vessel to the rocks, Capt. Bonfield succeeded in getting his vessel into deep water and headed for Monterey.

All the pumps were set to work, but the water gained on them with great rapidity, and within a couple of hours the vessel was full of water.

She is anchored safely off Pacific Grove, being kept afloat by her load. The Northland, which carried 800,000 feet of lumber, was a new vessel, just built at Eureka for Dodge & Company of San Francisco, and was making her maiden trip.

The vessel's cargo is valued at \$200,000 or \$300,000.

NOT A JOOLY AFFAIR.

Many Visitors in Belgrade for Peter's Coronation, but Shadow of Regicides is on the Court.

(BY THE ASSOCIATED PRESS—P.M.)

BELGRADE, Sept. 19.—[By Atlantic Cable.] The city, which is lavishly decorated, is filled with visitors, but there is no great enthusiasm over the approaching coronation of King Peter, which will occur Wednesday.

Only the government of Germany, Austria, Italy and Roumania have sent special messages of congratulation. The other powers will be represented at the coronation in a merely formal manner, and some of them, like Great Britain and Holland, who withdrew their ministers from the assassination of King Alexander and Queen Draga, are taking practically no part in the affair. In fact, the memory of the regicides still casts a shadow over the court.

It is rumored that King Peter resented the failure of the regicides to be constantly in communication with the secret police.

Russia will not be represented at the coronation.

FORECLOSURE AT BATH.

Sale by Receiver Smith of Properties of Defunct United States Shipbuilding Company.

(BY THE ASSOCIATED PRESS—A.M.)

BATH (Me.) Sept. 19.—Financiers interested in the United States Shipbuilding Company, including Charles McGraw Flske, who is receiver of the company, arrived here today to attend the foreclosure sale by Receiver Smith of the Bath Iron Works and the Hyde Windward, two boats of which were absorbed by the shipbuilding company upon its organization, and have been operated by the receiver since the collapse of the company.

Under Receiver Smith the battleship Georgia has been completed at the Bath Iron Works, and the battleship Oregon has been launched on Tuesday, October 11.

The first of the two boats were sold first. There was but one bid for each parcel, the property being bought for the reorganization committee. The bids were \$100,000 for the real property, and \$100,000 for the personal property.

Chicago Police Raid Chinese Gambling House and Make One Hundred and Forty-five Arrests.

(BY THE ASSOCIATED PRESS—A.M.)

CHICAGO, Sept. 19.—Detectives on Sunday raided a Chinese gambling house in West Van Buren street and made 145 arrests. Six wagons were filled with prisoners, and the place was charged with being the keeper. The raid was the first of the kind for several years.

The gaming room was on the first floor. An apartment was used for opium smoking. In the rear of this was the place for gambling, bing loo and fan-tan were played. Hundreds of dollars worth of money were found. Detectives entered the big room. Sixteen tables were in operation with an average of twelve players to a table.

STATE PRINTER'S REPORT.

SACRAMENTO, Sept. 19.—The biennial report of W. W. Shannon, State Printer, was filed today in the office of Gov. Pardee.

The report shows the State Printing Office to have been busily engaged during the past year. Credit is given the new machinery and improvements for a greater amount of work performed, and a heavy increase in the sale of school text-books is noted. Commenting upon the work done in the adoption of the new text-books, the report says: "Four new books, a United States history, an introductory geography, a grammar, and a book in arithmetic, have been manufactured during the year without any expense to the State treasury, whereas, the same work would have cost many millions of dollars if purchased from the outside market."

One of the general-expense items is the sum of \$100,000 paid in royalties from sales of books during the year.

PRISONERS WALK OUT.

TRINIDAD (Colo.) Sept. 19.—Ten prisoners walked out of the County Jail at an early hour this morning through the treachery of Ray Hathaway, a trusty serving time for a minor offense. Hathaway unlocked the cells and gave the prisoners their liberty. Hathaway and one other prisoner were recaptured, but the others are still at large.

ANOTHER LESSON OF CAMPAIGN.

GERMANS DUMPING OF STEEL IN BRITISH MARKET.

Tire Makers Sue Because of the Importers' Lower Prices and Secure Damages—Michigan for Roosevelt.

"Drummer Orator's" Campaign. Maine's Democratic Dodgers.

BY J. V. VAN EATON.

(SPECIAL CORRESPONDENCE OF THE TIMES.)

NEW YORK, Sept. 19.—A striking illustration of the effect of the dumping of German steel into the markets of free-trade England was recently afforded by the reduction of prices of channel steel until the English manufacturers in one line of their business were practically driven out of the market.

The testimony introduced in a suit tried in Leeds, and the decision rendered, showed that a firm of steel roller manufacturers in Sheffield had been so affected by the importation of foreign iron and steel that they were obliged to reduce the contract price for gauges and channel steel bars to a firm of rubber-tire makers in London. It seems that the tire makers had paid the steel company £137.10s. but were to be repaid this sum after they had ordered 150 tons of the particular section of steel bars bought at £13 a ton. The price was to be reduced if the price of steel fell. The concern made a small reduction, but the tire makers claimed that the tire manufacturers' claim was not enough, and discontinued their orders. They also sued the steel firm for the recovery of the deposit, £137.10s. The jury found for the plaintiffs on the question of price, and awarded them £200 in addition to the £137.10s.

This action of the German steel manufacturers illustrates most forcibly what would take place in the domestic markets were it decided to lower or repeal the present duty in the iron and steel schedule. It is quite possible that the present duty will be maintained, but the tire makers would dump their products upon this market in such volume as to seriously interfere with American production, and with consequent laying-off of labor. The country would be at the mercy, not only of German steel makers, but of the English manufacturers as well, who would most willingly stand the freight charges in order to gain an entrance into the splendid American market.

MICHIGAN'S SENTIMENTS.

Senator Burrows of Michigan will open the campaign in his State Saturday, October 1, at a place not yet agreed upon. The Senator has been spending a fortnight on the coast, and is returning to Michigan. He says that Michigan will give the Presidential ticket a majority of at least 75,000. President Roosevelt's personality appeals strongly to the western people, and particularly to those of Michigan. Day season they are showing "personally conducted" parties of constituents over St. Stephen's, dilating in the approved style on the various features of interest.

Not infrequently the member has as many as two hundred constituents following him on his rounds. Generally, if the House has not assembled, they insist upon his pointing out the seat which he occupies in the House. The Senator is a comparatively new northern member, was not content until the handful chosen of the people had elected him to the House. He is a member of the House since 1898, and has been a member of the House since 1898.

"DRUMMER ORATOR."

C. C. Hunt of Illinois will start this week on a speaking tour among the commercial travelers in the interest of the Republican candidates. He is known as the "drummer orator," and did similar work four years ago. He asserts that the interest in the present campaign is greater among commercial travelers than it was in 1906. Then the currency was almost the sole issue, and it did not awaken the enthusiasm among the traveling men. The fear of possible Democratic success proved quite a setback to business, early in the summer, but confidence is being restored, and merchants are now buying more freely.

MAINE'S DEMOCRATIC DODGERS.

Judge W. S. Kenworthy of Iowa has returned from a speaking tour in Maine, during which he made twelve speeches for the Republican ticket. He says that the campaign was affected by the prohibition issue, which Democrats used against Republican Sheriffs. In the cities where a law enforcement of prohibition is desired, the Democrats claimed that Republicans were enforcing it too strictly, while in the rural communities, the Sheriffs were represented as not being strict enough. In this way, the Democrats sought to divide the vote by appealing to the prejudices of the voters.

PRAYER BOOKS TO MATCH.

The growing fashion among smart women of carrying at church parade prayer books in binnies to match their dresses has terribly shocked Archdeacon Diggle of Birmingham, who has been denouncing from the pulpit society women for their frivolity and irreverence.

But the archdeaconal dismay is not shared in Paterminster Row, which is the home of the prayer book and Bible warehouses. On inquiry there as to the custom it was ascertained that no less a person than an Anglican bishop had ordered for his daughter a cream bound prayer book with silver clasps and monogram in silver.

It was a white prayer book which was first introduced, primarily for the use of brides and bridesmaids. The

ISRAEL'S SONS
KEEP HOLIDAY.WHOLESALE HOUSES CLOSED
AND SERVICES HELD.

Rabbi Hecht Discusses Sin and Its Consequence in "Yom Kippur" Morning Sermon, and Rabbi Solomon Conducts Extended Services in Elks' Hall—All-day Ceremonial.

The Jewish people of Los Angeles celebrated "Yom Kippur" yesterday, keeping the day of atonement with solemnity and special services in their various places of worship. All-day ceremonial was observed at Elks' Hall and Elks' Hall.

The Jewish wholesale houses on Los Angeles street, center of the greatest commercial activity in ordinary times, were closed all day, and unwonted quiet prevailed. Though downtown stores of Jewish ownership remained open, for the most part gentle clerks were in evidence.

As one wealthy Hebrew said yesterday: "There is one day in the year when every man of us remembers with serious thought that he is a son of Israel."

Rev. Dr. M. G. Solomon presided at the extended services at the Elks' Hall, and Rev. Dr. S. Hecht at those conducted in beautiful Elks' Hall. Rabbi Hecht's main sermon was delivered in P. M. morning, and was followed by an afternoon talk in the German language, which the pastor gives once a year. John T. Jones, in his morning discourse, upon sin and its consequences, Dr. Hecht said, in part: "What is sin? The answers to this query are many, as many almost as the number of those who sin. It has been the theme of poet and prophet of old, it forms the subject of one of the grandest books of the Bible; the Greek dramatists constructed their powerful presentations upon this subject, and modern drama, as well as modern literature, both sacred and secular, as well as the teachers and preachers of righteousness today, turn by common consent to the subject of sin."

"We, together with our coreligionists celebrating this Yom Kippur, should have less reason for so doing were it not for our own consciousness of sin. One need not be a religious man, as that word is often used; one need not concern himself with the theological conception of sin in order to turn his attention to it. The nature of sin is the most powerful incentive toward its consideration."

"However true it is that the evil one does reacts upon others, it cannot be gainsaid that whatever one does, he does primarily to himself. Whatever theologians might try to juggle with this and obscure the truth in the end it will have to be admitted that neither morality nor religion, nor life itself, contains a truth as profound as this one, that every man is responsible for his own actions, and that the consequences of his actions must always follow upon ourselves as the result of our own actions."

"It is certainly good to have faith, not only in God, but in man; confidence is unquestionably a very desirable element in the composition of man, and suspicion in man or woman is undoubtedly a sign of weakness or a lack of capacity."

"Yet, we must never lose sight of our limitations. The architect or engineer may have faith in the strength of the column to sustain the weight which he puts upon it, but for all his faith, if he is a good workman, he will know the point beyond which he may not trust its sturdiness."

Muscle was a feature of yesterday's services, and the strain upon the preacher was seconded by a strain scarcely less upon the choir, which were called upon to respond shortly after 9 o'clock in the morning until the sun had set in the evening.

HOMELESS BOY.

Attractive Waif at Bethlehem Institution Wants Somebody to Give Him a Home.

Friday a bright lad of 14 years appeared at Bethlehem House, where his manners and appearance at once attracted the attention of Superintendent Dana W. Bartlett and others about the hotel.

In his determination to get work in order to maintain himself, the lad started to walk from Santa Ana to this city, but on the road he met a man who was so favorably impressed with him that he bought a railway ticket and sent the boy on, with instructions how to find the Bethlehem house. For three days he has been there, and his manners are so attractive that he has made friends of everybody, and now all he wants is work.

He gives the name of Ray Creede, and says when he was but 7 or 8 years old his mother died at Petaluma, the family having removed there from Laurel, Wash., where the boy had been born. Up to within a year he continued to live with his father, when the latter suddenly died, leaving the boy entirely alone. He some time since learned of an aunt living at Santa Ana, and went there, or was sent there, in the hope that she could care for him.

The boy says he found that his aunt was not able to provide for him in addition to her own family, and so he determined to walk to this city, where he was sure he could find something to do.

Mr. Bartlett is so favorably impressed with the boy that he is anxious to find for him a good home and employment, and he hopes to sufficiently interest somebody in the waif to induce them to take him in.

Telephone, write, or call on Dr. Bartlett at the hotel, No. 215 Vignes street, this city.

PERSONAL.
E. P. Garnett, business man of Kansas City, Mo., is at the Van Nuys Broadway.

Dr. George L. Pile of San Francisco arrived with his family at the Angeles yesterday.

H. P. Hood, a tourist of Emporia, Kan., is with his wife a guest at the Westminster.

Frank A. Bowles of the firm of Bowles Brothers & Co. will leave today for a business trip to Texas and incidentally the World's Fair, to be gone a month.

J. H. Hamilton, with E. Cuthbert Hamilton, his son, took rooms at the Van Nuys yesterday. The two Hamiltons are connected with the American Beet Sugar interests of New York.

SAN DIEGO.

DISPATCH BOAT IN PORT.

—(BY DIRECT WIRE TO THE TIMES.)
SAN DIEGO, Sept. 19.—[Exclusive Dispatch.] The torpedo-boat destroyer Paul Jones, which arrived here today on a dispatch boat, is the first of the New York, the torpedo-boat destroyer Bennington, the cruiser Boston and the collier Nero, reports that although a sharp lookout was kept on the run from San Francisco, neither Russian nor Japanese ships were seen.

The Jones left the other vessels at 11 o'clock last night, arriving here at 8 a. m. The New York, Bennington, Boston and Nero passed the harbor well out to sea this afternoon at 2 o'clock, headed for Magdalena Bay. En route they will meet the Chicago, coming to the Coast from the Atlantic. Rear-Admiral Goddard, being transferred to the Chicago and the New York continuing on to New York City, the Jones will be stationed here as a dispatch boat plying between this port and Magdalena Bay. Later she will be joined by the torpedo-boat Perry, the boats alternating in the service.

MAY LOSE A LEG.
J. W. Stewart, a Mosca miner, met with a peculiar accident Sunday. He was riding in Mosca Cañon in a wagon with a large revolver in the seat by his side. Alighting, he reached up for his weapon, and in the process he was discharged, struck the hammer, and fired, the ball entering his leg near the knee. He was brought to San Diego for treatment.

TIDE IMPRISONERS LADS.
Three ten-year-old boys narrowly escaped drowning at Coronado yesterday. They were playing on the beach at the end of the old pier. A violent storm broke, and the tide hit them. They were cut off from shore. They were buffeted by the waves and thoroughly drenched and with difficulty kept from being washed away. One lad was lifted from the rocks by a wave, but managed to regain his place. The other two were prisoners until the tide went out.

SAN DIEGO BRIEFS.
The Bascom meat market and wagon and warehouse at El Cajon were burned today, entailing a loss of \$5000. A volunteer fire brigade made up of El Cajon citizens, by hard work saved several valuable buildings. The citizens-bureau also saved much from the burning warehouse.

The Supervisors today fixed the State and county tax rate at \$1.75 on \$1000. There were 50 cents on the dollar road tax additional for outside property, making \$2.25 for the latter. This is 10 cents higher inside than last year.

Eleven more Chinese, captured near Campo Tuesday, were ordered deported today.

Storm after storm is reported to have broken over the region about Campo, fifty miles east of here, the last of last night. A heavy hail fell in quantities, stones the size of marbles being not uncommon. Trees were stripped of foliage and fruit and shrubbery beaten to the ground. Streams in that section are swollen and roads are impassable.

LURED FROM THE HAREM.
Mrs. Howard Gould's Beauty Doctor Tells of Her Experience in Egypt.

[Chicago Inter-Ocean.] Mrs. Howard Gould has lost her "beauty doctor." From the palace of the Goulds the "doctor" has gone to a modest little house on the West Side and begun housekeeping for she is a bride. If it were not for her marriage the remarkable story of how she came into the service of the millionaire's wife might never have become public.

Now it comes out that Mrs. Gould, on her recent yachting trip to Egypt, lured the beauty doctor away from the harem of the Khedive, where she had to do what she could to enhance the beauty of the 300 women of the seraglio. Until recently she was known as Mile. Babouhot. Now she is the wife of Ernest May, dealer in antiquities.

It was quite by accident that Mrs. Gould robbed the Khedive's harem of its face-painter. The woman, who is a Western Union multi-millionaire reached Cairo after a long and laborious Mediterranean voyage.

She was joined by her husband, who is a millionaire, and they lived in the harem of the Khedive. She was lured by the prospect of a large fortune. She was lured by the prospect of a large fortune.

THE GUN-POINTER'S DUTIES.

Primarily, the "dotter" consists of a movable card target placed a few feet away from the muzzle of the gun, and an electric connection with the firing key, made to dot this card just after a shot from the gun would strike it at the particular moment of pressing the key. The card rises and falls vertically, and its movement is timed to correspond with the known period of normal roll of the particular ship in question—the one on which the gun is mounted, and the effort of the gun-pointers is to keep the gun

Record target practice, which, by way, is not the secret target practice of which the public hears ought, is conducted with the targets at a distance of 1600 yards. For guns of 8-inch caliber and upward, the ships steam by at a speed of eight knots an hour and during a fixed period each gun is fired; for guns of 7-inch caliber and lower, the vessels pass the targets at the rate of twelve knots an hour, and because of the water rapidity of fire, the firing pe-

where the air density is greatest and the intensity of air vibration is relatively increased accordingly. Again, concussions and air vibrations are known to be most violent over water and flat surfaces than on rough and broken surfaces, so that under this head it would appear as proved that the blast in naval guns is greater than it would be in a similar gun on shore. The actual shock or vibration which is transmitted to the gun and its mounting at the moment of firing is not so great afloat as it would be on shore, because of the buoyancy which the water leads to the platform from which the gun is fired.

THOMAS WALLS PRESIDENT OF THE LARGEST AUCTION HOUSE IN CHICAGO **WRITES:**

Mr. W. F. McBurney, Los Angeles, Cal.—Dear Sir: It affords me pleasure to testify to the efficiency of your Kidney and Bladder Cure. I have been troubled with my kidneys and bladder for over four years. I have been treated by the best physicians in this city during that time. I mention two who stand at the head of the profession, viz: Dr. A. C. Purdy and Dr. Frank Walls, the latter being my son. I regret to say they did me no good. I was advised to spend the winter in your glorious climate and try the ocean baths. I visited San Diego, Santa Monica and Santa Barbara, but received only temporary relief from the baths. On the night before I left home I got a bottle of your medicine. The first dose did me good and I was well when I reached home, and can say in conclusion that I am grateful to you. If this letter is of any use to you—use it.

Is caused by uric acid in the blood, and only by removing this poisonous acid from the blood can Rheumatism and Neuralgic troubles in all their torturing forms be cured. Uric acid finds its way into the blood because the kidneys are weakened and do not throw out the uric acid. Restore the kidneys and they will restore the power which forces the uric acid from the body. That is just what MCBURNEY'S KIDNEY AND BLADDER CURE does; it restores the power of the kidneys; it causes the uric acid from the blood to be thrown out of the body, and sustains life and the forces which make blood.

THE CITY IN BRIEF.

NEWS AND BUSINESS.

Azusa Man Bankrupt.

James A. Smith of Azusa was yesterday declared a bankrupt in the Federal Court. He owes \$250.73, and has but \$23.69, of which \$9.18 is in exempted property.

Meeting at Garvanza.

The many friends of citizens of Garvanza to protest against the maintenance of gas works in the Arroyo Seco will drive place Thursday evening at the Los Angeles College of Fine Arts.

Dollars and Four Years.

Sentence was yesterday passed in the United States Court upon James Lynch and Harry Lennox, the two young men who thought to better their condition by breaking into the post-office at Bloomington, San Bernardino county. They were fined \$1 each and sentenced to four years of hard labor in Folsom prison.

Tyndall Talks.

Dr. Alexander J. McVior-Tyndall addressed two good-sized audiences at Blanchard Assembly Hall yesterday afternoon and evening, talking upon subjects embraced in the study of psychic science. Meetings will be held tomorrow afternoon and evening, when the topics for discussion will treat of the right development of power and the conquest of fear.

Acting Mayor Ill.

Hon. W. M. Bowen, president of the City Council, who in the absence of Mayor Snyder, is acting as the city's chief executive, is confined to his home in West Thirty-second street, by a severe attack of illness. His condition is not such as to alarm his family and friends, but his illness is sufficiently serious to confine him closely to the house probably for a week.

Wagon Over Man's Neck.

A heavy wagon, partly loaded with long telegraph poles, ran over the neck of R. A. Mobley, No. 127 Rich street, yesterday. Mobley went to work in the morning for an electric railroad company as an extra driver. While working with a gang of men at Hill and Fifth streets, the horses started to run away. The reins caught Mobley's heel and threw him. The wagon passed over his neck, inflicting a painful bruise.

Vagrant Chinaman.

Wong Kim and Wong Chang, vagrant Chinamen arrested near Monterey, were brought to the County Jail yesterday for ten and twenty days, respectively. A Chinese inspector nabbed them shortly after the countable got them, but the township justice in whose jurisdiction the case came refused to give up his fee, and they were taken to jail. As soon as they come out, steps will be taken for their deportation.

Terrible Fall Down Stairs.

Alexander Helt went to work at the Police Market yesterday and fell down stairs and sustained injuries that may prove fatal. He is not a strong man and could not stand the strain. He seems to have sustained internal injuries and bled terribly for hours in the Receiving Hospital. The proprietors of the market, although not a whit of blame attaches to them, feel badly over the accident, and express a willingness to do anything in the world they can for the unfortunate man. He is unmarried and lived in a lodging-house on Commercial street.

Hendricks' Benefit.

Charles T. Hendricks, late tenor of the Burgomaster Opera Company, will be given a benefit at Simpson Auditorium tonight by a number of local artists. Mr. Hendricks for a number of years has been threatened with blindness, and has been quite unable to work. The benefit is in charge of Mrs. Fred R. Dorn, soprano, and an excellent programme has been prepared. Among the artists who will participate are W. F. Skeels, organist; Mrs. Adelle Harris-Reimers, violinist; C. M. Chapin, violinist; Miss Blanche Williams, pianist. Mr. Hendricks himself will sing a number of solos.

Denounce Falsehood.

Members of the Seventy-seventh Precinct Republican Club met last night on East Fifty-fifth street to perfect organization for the city campaign. Strong resolutions were passed denouncing the Express and Record for the untruthful reports published about this precinct in connection with last Friday's special election. In both papers certain events were chronicled as taking place which never occurred, and to bolster up these reports the names of men were used who do not live in the precinct, and naturally could have had no part in Tuesday's election. The Republicans of Precinct 77 will send only delegates to the city convention who will vote for a Vernon man for Councilman.

Notable Sale of Lots.

A notable feature in the real estate market was the sale, yesterday, of over one-third of the lots in Garfield Place at Hollywood. The tract is handled by Grider & Hamilton, through judicious advertising of a meritorious tract they have made a record of sales of thirty-nine lots. Seventeen of these have a frontage on Garfield avenue and are 150x150 feet. Twelve of the lots sold have a frontage on Western avenue, and they are 2x170 feet each. These were sold to twenty-three purchasers, and the prices ranged from \$750 to \$2500, aggregating \$27,900. It is said that fully one-half the purchasers expressed their intention to build for their own homes on the lots purchased. Garfield Place lies to the north of Prospect avenue, and this street forms its southern boundary. It extends to Franklin avenue and Western avenue in its eastern border. Garfield Place has been improved with cement walks, eight feet wide, and a park space of ten feet lies between the walks and the curbs, this is beautified with drocenas and palms.

Signs of Fall.
You see 'em everywhere and in everything, from the brown of the foliage to the brown of the fabrics that grace our counters just now.

For, you know, Dame Fashion has said that except in rare cases, he who is not in a suit of brown this Fall is sure to be "out of it."

Though paradoxical, that's just as much the truth as that we're still making high-grade tailoring at medium grade prices.

Estey Piano & Organ Co., Est. 1846
Emerson . . . Established 1849

A new era in piano selling in Los Angeles came with the opening of the Geo. J. Birkel Co. establishment, some four miles from the city. It meant emancipation from haggling prices that so often meant unduly high prices—if you didn't haggle enough. It meant fair prices to everybody—and all goods marked in plain figures.

We believe in selling pianos, fairly; meaning that customers should get their money's worth, always; and upon this idea for a foundation, we have in four short years built up the second largest piano business west of the Rocky Mountains.

WESTLAKE'S NEXT PASTOR.

Minneapolis Minister Slated for the Charge.

Rev. Dr. Ryder Expected to be Transferred.

Conference Opening Tonight in Pasadena.

Speculation concerning who would succeed Dr. John Lloyd Pinner as pastor at Westlake Methodist Church has been set at rest, so far as it can be prior to final determination by Bishop Wilson.

The man selected for the place is Dr. William H. Ryder, at present pastor of Joyce Methodist Church at Minneapolis, Minn., an influential church named after Bishop Joyce. The official board of Westlake Church has unanimously

BISHOP LUTHER R. WILSON, Who Will Preside at the Conference in Pasadena.

Dr. Ryder is a fine preacher, and those who know him say that he is the ideal man for Westlake Church. He has successfully occupied the pulpits of Euclid Avenue Church, Cleveland, O.; First Church, Alliance, O.; and Joyce Church, Minneapolis, all among the important stations of the denomination. He has also traveled through the Holy Land.

RECEPTION TONIGHT.
The twenty-ninth annual session of the Southern California Conference will be ushered in at the First Church, Pasadena, with the official reception tonight. Bishop Luther R. Wilson of Baltimore, the last of the bishops elected at the General Conference in this city last spring, will preside, and the membership will come up to the meeting with a deeper interest than has characterized any annual conference in Southern California in recent years.

PHENOMENAL REPORTS.
The Los Angeles pastors will make the most phenomenal reports in their history, the growth in all the churches of the city having been remarkable. Dr. McIntyre of the First Church will report a membership of 1511, with benevolent collections amounting to over \$2000. His Sunday-school, under the efficient superintendence of Dr. H. W. Brodbeck, has grown to an enrollment of 2965, including a home department of 538, one of the largest in the country. The average attendance for the entire year has been 909, and the missionary collections of the church have amounted to \$600. For all other purposes the school has collected and disbursed \$1632 in addition. It is the largest Sunday-school west of Chicago, and is one of the largest in the entire country.

WHITE RECOGNIZED.
Special interest is felt in Los Angeles over the recognition accorded to Dr. George W. White, former president of

the University of Southern California, who was transferred to the northern conference two years ago. He was yesterday placed on the list of Conference Examiners, and was also chosen a member of the commission to attempt to accomplish the federation of the publishing interests of the Methodist Episcopal Church and the Methodist Episcopal Church, South.

Dr. White is a man of broad education, and great ability, and his friends are pleased to know that this is recognized in his new field.

SO LONG LIVE THE TWO-STEP!
Prof. Kramer has spoken; isn't that enough.

Los Angeles Dancing Master, President of All the Other Dancing Masters, Declares Knell of the Popular "Dip-and-Glide" Never Will be Told.

Prof. Henry J. Kramer, of this city, who recently at St. Louis was elected president of the American Society of Professors of Dancing, takes exception to an article published in the Chicago Journal, which quotes J. Edward Martineau, the oldest dancing master in the Windy City, as saying that the two-step is "disgraceful," that "it has been condemned by the American Society of Professors of Dancing" and "will have to go."

"I have known Prof. Martineau for a number of years," said Prof. Kramer yesterday, "and I fear that the venerable gentleman has been misquoted. It is not true that the society has condemned the two-step; there will never be any such thing as gilding the knell of this popular dance. The two-step has come to stay. We cannot create a dance that has greater simplicity and charm of motion. Since its innovation a few years ago it has become the rage of society, and one may almost say it is the national dance of America today. It is a strictly American dance, and the martial music of John Philip Sousa, and others which called it into vogue, has given it a popularity which cannot be broken."

"Of course new dances will be introduced from time to time, but they will be on the lines of the waltz or the two-step. So far as I can see nothing can be substituted that will ever take the place of the two-step and the waltz. The former is not 'disgraceful' or 'holier-than-thou'; nor is it ridiculous. In discussing the art of dancing we speak only of the refined class of dancers. Certainly any dance under the sun can be exaggerated to a point which makes it disgraceful, but the society of Professors of Dancing is not attempting to govern the Bowery."

"We cannot say that the two-step is a new dance strictly speaking; for it was taught by the late Prof. Allen Doodworth, formerly of New York and now of Pasadena. He taught it to the polka time. It is more the innovation of march music, such as Sousa's 'Washington Post,' and popular. Waltz time appeals more to musical people and the nations of Europe, but for the two-step and popular. Waltz time holds away, and the two-step has become nationally popular because of its simplicity and ease of learning. It requires less time to learn than any other dance in use by society today."

"The 'holier-than-thou' and 'society' glances of the Chicago Journal are unwarranted. The two-step is undoubtedly the outgrowth of half-time, a system of dancing which has never been recognized by the society of Professors of Dancing, and which has been indulged in principally by college students and those wishing to follow college fads. The half-time, taking twice as long to execute the steps, leads to accentuated dipping and exaggerated glides, but it cannot last. With its departure the waltz will be the graceful movements of full rhythmic time."

TIRED OF ROMPING.
"Dancing is becoming simpler each year, and the trend is to do away with the elaborate, extreme. Society is tired of romping and is once more ready to return to the schottische, Newport, mazurkas and minuet, which abound with variations and are danced to slower time."

HE HADN'T "SHOWN."
Rev. Prof. Dr. Howton, the Sixth Ward "spook doctor," is not yet a Councilman. He has not shown that he is an American citizen.

Dispatches received yesterday from Chicago by The Times, by Councilman Davenport's attorneys, and even by friends of Howton, or Houghton, all declare that no man by the name of either Howton or Houghton was naturalized in the courts of Cook county during the year 1902.

Yet the spook doctor with two names made affidavit that he was naturalized in Cook county during the year 1902—AND THAT HE HAS LOST HIS NATURALIZATION PAPERS!

It is on the strength of this affidavit that Howton expects to qualify as Councilman from the Sixth Ward.

Over to the failure of the quorum the Council did not yesterday canvass the returns of Friday's special election. These returns are supposed to show that Arthur D. Houghton received a majority of the votes cast for Councilman at Friday's election.

The Council will meet this morning. Inasmuch as the city charter provides that the Council shall pass on the eligibility of its members, it is likely that Howton will not be permitted to take part in the deliberations until he produces some evidence to show that he really is an American citizen.

PILOTED TO CITY HALL.
Prof. Howton went to the City Hall yesterday morning. He was accompanied by one Francis Drake, walking delegate for the Typographical Union.

The spook doctor's demeanor as he climbed the stairs to the Council chamber was deprecating in the extreme. After he reached the corridors on the second floor he paused in evident embarrassment. He had expected to find the Councilmen lined up ready to do him homage.

Instead, an employe of the City Engineer's office jostled him as he rushed past in a wild dash to escape from one of the political brickmashers. "Get on with you," he heard a voice say, "the railing," sang out Tom Savage from the other end of the lobby. "I made that makes it liable to rapid decomposition. Certainly when removed from cold storage it undergoes decomposition more rapidly than meat which has been frozen, and it does so even after it has been cooked. It seems reasonable to suppose that such food taken into the stomach of a man suffering from chronic indigestion, would rapidly decompose, with the formation of more virulent poisons than if perfectly fresh food were eaten. The very condition of the intestines would in turn cause any inflammation of the appendix to be much more severe than it otherwise would be. The comparatively harmless colic of former times becomes, therefore, in these strenuous days, the dangerous appendicitis."

A French physician has just advanced another theory. From the large number of facts he has collected from various sources, he contends that appendicitis occurs only in meat eaters, and generally in connection with epidemics of typhoid fever. He says that the French people, whose meat is allowed only once or twice a week, and appendicitis seldom or never occurs among the inmates. Among the vegetarians, however, the appendix is also affected by the practically unknown. Investigation of the Roman Catholic religious orders showed a remarkable absence of the disease among those whose vows compel abstention from meat or frequent fasting, while among those whose rules permit of a more liberal diet in meat, appendicitis is very common.

Occasional fasting from meat, then, is urged as an excellent measure, especially for those who have ever suffered from grip. However this may be, we are pretty sure in formulating this broad rule: Let a man eat moderately and leisurely, and his food and drink be pure, wholesome and easily digested. Let him see that the functions of the bowels, so far as he knows about them, are regularly performed; let him keep properly and warmly clothed; and it is very improbable that he will ever be in the condition qualifying him for membership in an appendicitis club.

AFTER FORTY YEARS.
Forty years ago a sailor, now of Ulster City, received on pay day a silver half dollar. Silver had then become so scarce that he carved his name and the number of his regiment on the reverse of the coin. This resolution lasted two or three days, and then he spent the coin.

He recently received this coin in a transaction, and has now retired it from circulation. The full history of the half dollar's wanderings cannot be traced, but no more being learned than that it was spent for tobacco once, whisky twice, was in a missionary box once, and four years ago was lost and won in an election bet on Bryan.—[Detroit Tribune.]

FIRST ROUND WON BY CITY.

Fernando Ranchmen Lose in United States Court.

But Given Another Chance to Restrain City.

Water-users Fail to Show Federal Question.

By an opinion rendered yesterday in the United States Circuit Court, Judge Olin Wellborn has declared the city winner in the first round of its legal fight to take the water of the San Fernando Valley ranchers.

Unless ex-Judge Albert M. Stephens and Cyrus F. McNitt, attorneys for the ranchmen, can change Judge Wellborn's opinion within a few days, through the filing of an amended complaint, the Federal Court will decline all further interference, and the city can proceed with the getting of an injunction from the Superior Court restraining the ranchmen from using water from their own wells.

A few words will make the situation clear. The city, as already explained fully in The Times, in order to secure a larger water supply, within its jurisdiction, has filed a suit in the Superior Court and asked a decision upholding the alleged paramount right of the city to use all the waters, surface and subterranean, of the Los Angeles River and its tributary streams, and for a permanent injunction restraining a large number of land owners and tillers in the San Fernando Valley from further developing and diverting the water of the city's water to the subterranean waters of that valley.

To head off the granting of such an injunction the attorneys for the ranchmen went into the United States Circuit Court, and filed a test case entitled "Jesse D. Hunter and Robert Devine against the City of Los Angeles," representing that a constitutional right was involved, and asked for an injunction restraining the city from obtaining the Superior Court's injunction.

To the Federal Court complaint the city demurred, contending that no constitutional right was involved and that therefore the Federal Court was without jurisdiction to interfere. This demurrer Judge Wellborn yesterday sustained, but he gave the plaintiffs (Hunter and Devine) leave to amend their complaint so as to bring it within Federal jurisdiction. If the complaint can be so amended the Federal Court will then attempt to secure an injunction from the Superior Court against the ranchmen.

The importance of Judge Wellborn's decision hence appears.

CONCLUSION REACHED.
Judge Wellborn has given an oral instead of written opinion in sustaining the city's demurrer. He read previous decisions of his own in similar cases, and quoted from the Supreme Court of the United States and lesser authorities.

He said, quoting from pertinent opinions: "There may be suits to redress fractions of that clause of Section 10, article 1, of the Constitution which forbids the passage of any law impairing the obligation of contracts, or of that clause of Section 1 of the Fourteenth amendment which prohibits the Federal Government from depriving by State authority of life, liberty or property without due process of law, or wherein the Federal questions will appear from plaintiff's own statement of his claim. Such cases, however, are rare."

"The Supreme Court of the United States, speaking to this very point, has said: 'There may be suits to redress fractions of that clause of Section 10, article 1, of the Constitution which forbids the passage of any law impairing the obligation of contracts, or of that clause of Section 1 of the Fourteenth amendment which prohibits the Federal Government from depriving by State authority of life, liberty or property without due process of law, or wherein the Federal questions will appear from plaintiff's own statement of his claim. Such cases, however, are rare.'"

"Ordinarily the question of the repugnance of a State statute to the impairment clause of the Constitution is to be passed upon by the State courts in the first instance, the presumption being in all cases that they will do what the Constitution and the laws of the United States require."

FEDERAL QUESTION DEFINED.
Quoting from another of his own decisions, Judge Wellborn said: "Two things are necessary to the existence of a Federal question: First, that the case involves a claim for the enforcement of a Federal right, or the denial of one; second, materiality of the construction of such law to a Federal question. In the latter case, two constituents have been succinctly stated thus: 'A cause is not removable simply because its progress it may become necessary to construe or apply an act of Congress. Unless there is a dispute between the parties as to the meaning of the act, there is no Federal controversy between them. The decision of the case, or some material issue in it, must depend upon the construction of the act claimed by one party to be valid, and denied by the other. A simple averment that such is the fact is stating a conclusion, and is not sufficient; the facts that show it to be true must be set out.'"

Judge Wellborn concluded: "The demurrer is sustained, on the ground that the complaint fails to show a case of Federal jurisdiction."

CORONADO BEACH.
CLOSE OF THE SEASON.
[SPECIAL CORRESPONDENCE FROM THE TIMES.]
HOTEL DEL CORONADO, Sept. 19.—Yesterday was the closing day of the busy season at Tent City. The band gave its last concert, the "Star Spangled Banner" being followed with "Auld Lang Syne." Most of the places of amusement, as requested, by many people have engaged tents for the balance of this month. The season has been very successful.

H. H. Culver of St. Louis has joined Mr. and Mrs. N. W. Taylor, Mrs. Culver and the daughters, Margaret and Ruth, at the house between the parlor and the dining room.

Rev. Charles E. Spalding of Christ Episcopal Church, accompanied by Miss Spalding and the children, are on a tour of the coast, stopping at the Casa de Rose, Chula Vista, for a fortnight.

PUBLIC SERVICE OFFICIAL DOINGS.

SUMMARY OF THE DAY.

The Independent Brick Company has failed to deliver according to contract, and the City Engineer yesterday said he will recommend to the Council to-day the purchase of 1,000,000 brick in the open market to be used in the construction of the outfall sewer.

Union agitators claim they are in position to force the Civil Service Commission to discharge all city employees who are unfriendly to union labor.

Acting Mayor Bowen yesterday named five playground commissioners. Justice Pierce heard a curious suit yesterday, wherein Mrs. Austen is suing her ex-husband for the price of testing in his behalf in his second divorce suit.

J. G. Jacobs' habeas corpus petition was heard by Judge Wilbur yesterday, but the court preferred to take it under consideration.

Term trial juries were named yesterday.

A Jamaica negro on trial in the Police Court called the justice "Mr. Copper."

MUST HAVE THE SEWER BRICK.

ENGINEER WILL ASK COUNCIL TO MAKE PURCHASE.

Product of Kilns of Political Brick-makers Not up to Specifications. Independent Company Blames It All on Trust—Contractors Ask for Million a Month.

"Had the Council held a regular session today I should have made a recommendation that 1,000,000 brick be purchased in the open market, to be used in the construction of the outfall sewer. They are needed badly, as the contractors are ready for them. I shall make the recommendation at the next Council meeting."

Back of this announcement by City Engineer Stafford is the story of the good thing that failed to come through. The Independent Brick Company, composed of young politicians who took a flyer in the brick-making business when the contract for supplying 20,000,000 brick for use was advertised, a year and a half ago, have discovered that to make bricks without straw is just as arduous in Southern California in 1933 as it was beneath the shadow of the pyramids twenty centuries ago.

Six months ago C. Forrester entered into a contract with the city to supply brick for the outfall sewer at the rate of a million a month for the construction of \$640 a thousand. In this contract, however, was placed a provision that in case Forrester failed to deliver brick up to specifications, the Council should purchase in the open market any bricks necessary to complete the sewer. Mr. Forrester, who holds that the time has now come when the city should make the required purchase.

Forrester, a few weeks after the contract was signed, acting under pressure of an action in court, assigned this contract to Oscar Lawler, who in turn assigned it to the Independent Brick Company. It is in this company that the brick which is being used in the sewer at the rate of a million a month for the construction of \$640 a thousand.

To turn out 1,000,000 brick a month is comparatively easy, especially when modern machinery and machinery are used. But to turn out brick that will not consume more than 8 per cent. of moisture—there's the rub.

It is claimed that brick which will stand this test cannot be purchased in the open market for less than \$10 a thousand. Binding the contract between the city and C. Forrester, the latter gave \$200,000 bond to insure the faithful performance of his part of the agreement. The advertisement for bids for furnishing brick for the outfall sewer specified that each bidder should submit samples of the brick which would be furnished. Those submitted by C. Forrester consumed more than the 8 per cent. of moisture specified in the advertisement, but the City Engineer recommended that the contract be awarded to C. Forrester, who had delivered, and to reject every brick that showed a predilection for being a soak.

It is in fulfillment of this pledge that the City Engineer has rejected the greater portion of the brick burned in the kilns of the Independent Brick Company. Members of this company, of which H. Flint is president, and Oscar Lawler is adviser and handy man about the kilns, yesterday asserted that all the other brick manufacturers in the city are in a league against them, that a trust has been formed, and that the city will be compelled to pay considerably more for the brick than they are worth. They say that this combination will try to drive the Independent company out of business. Mayor Snyder was expected to arrive early this morning from his eastern trip. If he is in the city today President Bowen will release him from the duties of acting Mayor, and will take his accustomed place in the Council. This will assure a quorum for the transaction of business and Mr. Stafford will send in his recommendation for the purchase of 1,000,000 brick, the September quota, for use in the outfall sewer.

TOTEM "BUTTS IN."

UNION AGITATORS THREATEN.

Walking delegates of the Typographical Union have served notice on R. H. Norton, C. D. Willard, Gen. C. F. A. Last and other members of the so-called Good Government League that they must now "make good" on their pledge to help the Typographical Union gang to oust from office all city employees who refused to work against Councilman Davenport in the recent unpleasantness in the Sixth Ward. Hay, Biddle and the rest of the gang hold the view that a part of their pound of flesh for participating in that movement was to be the scalp of a member of the civil-service employees as have refused to bow to the union ultimatum.

Willard Goodwin, clerk of the Council, City Central Committee, recently secured a resolution passed by his committee declaring that Mr. Davenport had made a good and efficient Council-

man. Now the Typographical Union gang is seeking to have him "fired" by the Civil Service Commission for "pernicious" activity. They have threatened to follow the union dictation in the Sixth Ward during the "ante" campaign with "expulsion" if they do not prefer charges against Goodwin and all other civil-service men who have not given a pledge of allegiance either to the Typographical Union or to the County Council of Labor.

One Drake spent yesterday in the City Hall interviewing civil-service employees. As many as refused to give some pledge of allegiance were threatened with dismissal. Drake said that he held the strings on the people who would "fire any man unfriendly to organized labor." Needless to say his firing list last night was larger than the list of subscribers to his abbreviated Union Labor News.

This afternoon the Civil Service Commission will meet. The members of the City Central Committee of either the parties yesterday sent in their resignations.

Playground Commission.

Acting Mayor Bowen yesterday afternoon filed with the City Clerk the following list of appointments as members of the new Board of Playground Commissioners: Mrs. Willoughby Rodman, Miss Heesie Stoddard, H. M. Barstow, E. E. Fiehlbaum, and Emmett Wilson. This commission was created by ordinance several weeks ago. It is said Mayor Snyder had promised names on the commission to persons other than those named yesterday afternoon by the Acting Mayor.

Election Ordinance.

An effort will be made to secure a quorum today for a Council meeting in order that an ordinance may be passed calling the city primary election, which is to be held October 25, and naming the election officers. This ordinance must be published not later than Friday.

Tyler's Case up Today.

The Police Commission is scheduled to meet this morning at 10 o'clock. Among other things expected to come up is the case of Desk Sergeant Tyler, suspended by the Chief of Police one day last week on the grounds of insubordination, which Tyler denies. It is reported that the board will report recommending that Tyler be reinstated, and that such action will likely be taken. There have been several complaints regarding Tyler's conduct toward persons coming in contact with him in the Police Station, and he and some brother officers have not gotten along harmoniously. When Tyler was suspended the Chief of Police said that if the men he cannot get along with smoothly, he will get men who will.

ASKS PAY FOR HELPING GET LATER DIVORCE.

Says Former Hubby Agreed to Pay Her for Giving Testimony, but He Denies Allegation—Burglar Goes to Sleep on Rooming-house Job and is Caught in the Act.

For testifying for her former husband in a divorce suit, brought by his later wife, Mrs. Susan M. Austen is demanding pay. The suit is pending before Justice Pierce.

Mrs. Austen is suing John B. Brandes to recover \$250 under a contract of some time Brandes was desirous of again figuring in the divorce court, and getting the shackles that bound him to his second wife broken apart. Thus far there is no particular dispute between the contesting parties.

Mrs. Austen avers that her first and divorced husband came to her and offered to pay her \$300 if she would testify in his behalf in his suit for divorce from his second wife, Gertrude Brandes, and the divorced first wife says that she consented. Mrs. Gertrude was the defendant in the case, and it came to trial on May 18, just a month with three days of the one time Brandes was desirous of again figuring in the divorce court, and getting the shackles that bound him to his second wife broken apart. Thus far there is no particular dispute between the contesting parties.

SLEEPS AT WORK.

F. ROMA SAYS HE WAS DRUNK.

Francisco Roma is a young Mexican with a most ingratiating way, and he is persistent, too, but unfortunately there is a boundary to his capabilities in the direction of his failure to speak English.

Roma broke into a young man's room, went through his clothes, and then in some noise he didn't just know what he also wooed Morpheus so ardently that he caused the occupant of the bed. This was his undoing.

It was on the evening of the 15th inst. that a young fellow in the employ of the messenger company, Wesley Bowes, went to his room in a North Main-street rooming-house and went to sleep. Early in the evening Francisco Roma came to the place and tried to ask the proprietor for something but couldn't make himself understood. The former made himself understood, however, by what to them is a "hostile attitude toward union labor."

Mr. Goodwin, as a member of the Executive Committee of the Republican City Central Committee, recently secured a resolution passed by his committee declaring that Mr. Davenport had made a good and efficient Council-

man. Now the Typographical Union gang is seeking to have him "fired" by the Civil Service Commission for "pernicious" activity. Mrs. Austen is suing John B. Brandes to recover \$250 under a contract of some time Brandes was desirous of again figuring in the divorce court, and getting the shackles that bound him to his second wife broken apart. Thus far there is no particular dispute between the contesting parties.

Mrs. Austen avers that her first and divorced husband came to her and offered to pay her \$300 if she would testify in his behalf in his suit for divorce from his second wife, Gertrude Brandes, and the divorced first wife says that she consented. Mrs. Gertrude was the defendant in the case, and it came to trial on May 18, just a month with three days of the one time Brandes was desirous of again figuring in the divorce court, and getting the shackles that bound him to his second wife broken apart. Thus far there is no particular dispute between the contesting parties.

SLEEPS AT WORK.

F. ROMA SAYS HE WAS DRUNK.

Francisco Roma is a young Mexican with a most ingratiating way, and he is persistent, too, but unfortunately there is a boundary to his capabilities in the direction of his failure to speak English.

Roma broke into a young man's room, went through his clothes, and then in some noise he didn't just know what he also wooed Morpheus so ardently that he caused the occupant of the bed. This was his undoing.

It was on the evening of the 15th inst. that a young fellow in the employ of the messenger company, Wesley Bowes, went to his room in a North Main-street rooming-house and went to sleep. Early in the evening Francisco Roma came to the place and tried to ask the proprietor for something but couldn't make himself understood. The former made himself understood, however, by what to them is a "hostile attitude toward union labor."

Mr. Goodwin, as a member of the Executive Committee of the Republican City Central Committee, recently secured a resolution passed by his committee declaring that Mr. Davenport had made a good and efficient Council-

man. Now the Typographical Union gang is seeking to have him "fired" by the Civil Service Commission for "pernicious" activity. They have threatened to follow the union dictation in the Sixth Ward during the "ante" campaign with "expulsion" if they do not prefer charges against Goodwin and all other civil-service men who have not given a pledge of allegiance either to the Typographical Union or to the County Council of Labor.

One Drake spent yesterday in the City Hall interviewing civil-service employees. As many as refused to give some pledge of allegiance were threatened with dismissal. Drake said that he held the strings on the people who would "fire any man unfriendly to organized labor." Needless to say his firing list last night was larger than the list of subscribers to his abbreviated Union Labor News.

This afternoon the Civil Service Commission will meet. The members of the City Central Committee of either the parties yesterday sent in their resignations.

Playground Commission.

Acting Mayor Bowen yesterday afternoon filed with the City Clerk the following list of appointments as members of the new Board of Playground Commissioners: Mrs. Willoughby Rodman, Miss Heesie Stoddard, H. M. Barstow, E. E. Fiehlbaum, and Emmett Wilson. This commission was created by ordinance several weeks ago. It is said Mayor Snyder had promised names on the commission to persons other than those named yesterday afternoon by the Acting Mayor.

Election Ordinance.

An effort will be made to secure a quorum today for a Council meeting in order that an ordinance may be passed calling the city primary election, which is to be held October 25, and naming the election officers. This ordinance must be published not later than Friday.

Tyler's Case up Today.

The Police Commission is scheduled to meet this morning at 10 o'clock. Among other things expected to come up is the case of Desk Sergeant Tyler, suspended by the Chief of Police one day last week on the grounds of insubordination, which Tyler denies. It is reported that the board will report recommending that Tyler be reinstated, and that such action will likely be taken. There have been several complaints regarding Tyler's conduct toward persons coming in contact with him in the Police Station, and he and some brother officers have not gotten along harmoniously. When Tyler was suspended the Chief of Police said that if the men he cannot get along with smoothly, he will get men who will.

Marries the Girl.

John A. Gates, colored man accused of criminal assault upon little colored girl named Langley, married her and got out of jail yesterday. Her trouble was made his girl's a rare absolute without precedent. When the arrest was first made it was announced that the girl was 15. Yesterday her mother made affidavit that she is 17 now. This is one of the instances the novels tell about where a year seems like a day.

Loyal Young American.

Mrs. N. is the teacher of the infant class in one of the best known Sunday schools in the city of Washington. Among her numerous scholars is her own small son, who has the greatest respect and love for the memory of that illustrious man whom all loyal Americans love and venerate—George Washington.

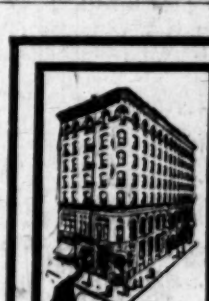

On the Fourth John was up bright and early, and, between firing off "crackers," of the room could be felt. The Sunday-school lesson was about Paul. Mrs. N. laid special stress on the fact that Paul was a soldier of the Lord, ever ready to fight when duty called. When she thought the lesson had been fully understood by all the small tots present, she said: "If any of you can tell me the name of the brave soldier I have been telling you about, raise his hand."

The little ones gazed at "teacher," but did not offer to answer her question. Finally her son caused her heart to swell with pride by raising his hand. "Speak loudly, John," she said, "so we can all hear."

The silence of the room came in strenuous tones: "George Washington."—[New York Times.]

DIED IN HER BROTHER'S ARMS.

NIECE OF WEALTHY HORSEMAN A VICTIM OF HEART DISEASE.

Victims of Desert Wreck Returned to Their Homes—Woman Who Threshed School Teacher Takes an Appeal—Death of One of Oldest Native Daughters.

SAN BERNARDINO, Sept. 19.—Miss Florence May Robinson, niece of John A. Cole, a wealthy horseman, died suddenly yesterday at her home near Redlands, being stricken with paralysis of the heart. She had been a sufferer from heart disease for years, and yesterday caught cold. Sunday she was seized with pain, and to her brother, who was holding her in his arms, she declared she was dying. Hardly had the words been uttered when she breathed her last. Coroner Pittman issued a death certificate and the funeral will take place from the late residence tomorrow.

BLIND FOR TWENTY YEARS.

Miss Mary A. Cox, one of the first white persons born in this section, died yesterday, after an illness of over three months. She was 50 years old. The funeral was held this afternoon from the late residence, Rev. Mark B. Shaw, of the Baptist church officiating. During the last twenty years Miss Cox had been blind.

WRECK VICTIMS BROUGHT HOME. George Colton and James Bird, the Colton youths who were injured in the wreck of the Santa Fe mixed train near Goffs Friday, were brought to the County Hospital, Bird later being removed to his home near Colton. His companion is the nurse injured, his right shoulder having been crushed.

APPEALED HER CASE.

Mrs. Mary Bonhamer, the Needles woman who was recently heavily fined for thrashing a young school teacher because he had chastised her son, a pupil, has taken an appeal to the Superior Court. The case has been entered upon the calendar for September 21. The county school authorities will assist in the prosecution before Judge Bledsoe. The possible moral effect of a verdict in her favor would have upon the discipline in the schools.

NOTES OF THE NEWS.

Thieves last evening made an attempt to burglarize the residence of Will Hanford, being scared off before they could secure any plunder. This is the fourth time within several months that the place has been entered. A negro youth is held in jail awaiting trial for two of these burglaries.

The case of John L. Campbell against the Edison Power Company, Fontana Development Company, and the Lytle Creek Water Company, to quiet title to 2000 acres of water in Lytle Creek, was commenced before Judge Bledsoe in Department 2 of the Superior Court, this morning, and will occupy several days.

The Superior Court convened this morning for the first time after the summer vacation, and had an unusually large calendar to dispose of. The criminal cases against Herbert Green and Louis Rice, charged with looting a safe at Needles, came on for arraignment and went over to September 21, when they will be set for trial.

Lizzie Dustin, who barricaded herself in the Finch residence at Rialto Saturday, after throwing Mrs. Finch out, and threatened to burn the place, was released from the County Hospital this morning, being placed in charge of her parents.

BEAT GENEROUS STEPFAATHER.

UPLAND MAN BADLY TREATED BY FREE BOARDERS.

Mischief Makers Exchange Rigs of Churchgoers of Ontario and the Footfall Town up the Slope on Sunday Night and Arouse Indignation. Water Men in Fight.

UPLAND, Sept. 19.—The spectacle of two young men beating their stepfather on whose generosity they had been living since the orange season, was a Sunday night incident here. David Conn is the man whose liberality appears to have gotten him into trouble. The stepsons are Andy and James Powden. They had been boarding with him free of charge.

A few weeks ago Conn went to Long Beach, and when he returned a number of chickens were missing. This led Mr. Conn to tell the boys that unless they went to work they couldn't board with him any more, and they must leave immediately.

Sunday night the boys, assisted by a friend, proceeded to "get even" by beating Mr. Conn. This they succeeded in doing, although some difficulty was experienced. Mr. Conn being well up in the art of pugilism, but finally he succumbed, after severely injuring his left hand.

When the boys had departed their victim started to have them arrested, but failed to do so, as he was unable to get out a warrant. Monday morning they decided to settle the matter by arbitration, and the fracas didn't get into court.

DOERS OF MISCHIEF. Several youngsters played a practical joke on local churchgoers last evening, much to the inconvenience of several residents of this community. In the period of church service boys from either Ontario or Upland took two rigs hitched in front of the Congregational Church at Ontario and brought them to Upland and exchanged them for rigs tied in front of the Methodist church here, and then took the rigs exchanged to Ontario. When the owners of the rigs sought them after church they couldn't find them. After much trouble the mix up was righted, but the perpetrators of the mischief are likely to suffer severely if their identity happens to be discovered.

WATER MEN'S FIRST FIGHT.

A great deal of trouble experienced in pumping the Hermosa Water Company's well in Cucamonga of late, led to a case in court today. Cliff Motinger, a citizen of Cucamonga, and a stockholder in the company, visited the pumping plant, and evidently took too much of what was on his mind. Dan Williams, who has been in charge of the plant for some time, Williams proceeded to knock Motinger down. Saturday evening Motinger swore out a warrant before Judge Bledsoe for the

REDLANDS.

SCHOOL YEAR BEGINS.

REDLANDS, Sept. 19.—The grammar grades of the city schools opened today with an estimated enrollment of 1200, 545 being the number in attendance at the three schools in the Redlands district, 604 at Lugonia, and about 70 in Crofton. This registration will be increased very materially by the older grades, many of which are still at the beach or mountains.

SOME GOOD SHOOTING.

At the rifle shoot held yesterday on Co. G's new range there was a sharp contest before the medals were awarded. Lieut. C. W. Lehr secured first medal by a score of 40 out of a possible 75. Private David Bethurum won second with a score of 60. New targets were used, the first with a 5-inch bullseye, and a record of 64 on them is considered far better marksmanship than was 72 on the old elliptical target of last year.

HOOK'S UNCLES MAY HELP.

EFFORTS TO SETTLE MATTER OUT OF COURT.

Alleged Forger, Who is Still in Jail, Says Claimant Was Formerly His Partner—County Physician Resigns to Take Position of Prison Surgeon at San Quentin.

SANTA ANA, Sept. 19.—Leroy Hook,

who was arrested in Fullerton and brought here Saturday night on a warrant charging forgery, is still in jail. He was arrested at the instance of W. W. Pence of Washington, Pa., who, Hook says, was once upon a time a partner of his in the ownership of a patent right. Hook is a nephew of William Graham, the Fullerton oil wells and of W. G. Graham of the Graham-Loftis Company, the largest oil producers in the county. It was reported this afternoon that an effort will be made by Hook's uncle to settle the matter out of court, and that failing in that, Hook will be taken back to Pennsylvania.

CAUGHT AFTER MANY DAYS.

Jack Forrester, who a little over a year ago stole a wheel and revolver from W. I. Pittard, was arrested yesterday in Santa Barbara, and will be brought back tomorrow. Forrester went East, after stealing the property, and only returned a few days ago. His arrival here was recognized at Santa Barbara and arrested and word at once sent here. The wheel was recovered in possession of a second-hand dealer in Los Angeles, and the revolver had been stolen, but the revolver was never found, and it is supposed that Forrester kept it in possession.

COUNTY PHYSICIAN RESIGNS.

Dr. A. C. Cushman, County Physician, tendered his resignation to the Supervisors today, and Dr. C. D. Ball was appointed to his place, the appointment to take effect at once. Dr. Cushman resigned in order to accept the position of prison physician and surgeon at the San Quentin State penitentiary, and will leave for the north in a few days. He was chairman of the Republican County Central Committee, and has been County Physician for two years.

EXPANSION OF SCHOOLS.

The total enrollment in the public schools, which opened today, is 121, according to a report submitted to Superintendent Templeton this evening. At the High School there are 330 students; at Central, 421; at First street, 237; at Grand avenue, 55, and at the new Third-street school, 308. The enrollment last year was 1260, showing a gain of 111, which will be largely increased within the coming two weeks by the arrival of delayed pupils.

ORANGE COUNTY DOTS.

Col. S. H. Finley, chairman of the Board of City Trustees, has been granted a sixty days' leave of absence from the State and left this afternoon for the World's Fair.

Action on a petition for a new road in the Newhope road district to connect with Huntington Beach has been continued to November 15 by the Supervisors.

The recommendation of the County Auditor for the fixing of the State and county tax rate at 1.19 for property inside incorporated limits, and 1.60 for outside property, was submitted to the Supervisors today and approved. When the board's rate was \$1.36 inside and \$1.60 outside.

RIVERSIDE.

FIX COUNTY TAX RATE.

RIVERSIDE, Sept. 19.—The County Board of Supervisors this afternoon fixed the tax rate for Riverside county for the year 1934-35 at \$1.80 for property in the cities and \$2.20 for property outside. The rate is 10 cents more than Auditor Clancy's estimate. The addition of 5 cents being made to provide for the grand jury, and 5 cents more for certain bridge work. The tax is distributed as follows: Total rate, 53 1/2 cents; general county fund, 67 cents; school fund, 24 cents; salary fund, 20 cents; hospital fund, 11 cents; bond and interest fund, 4 1/2 cents; and road fund, 40 cents.

CITIES ARE EXEMPT FROM THIS ROAD FUND, WHICH MAKES THE DIFFERENCE IN THE INSIDE AND OUTSIDE RATE. THIS IS 5 CENTS LOWER THAN THE RATE LAST YEAR, WHICH WAS \$2.25 OUTSIDE AND \$1.85 INSIDE.

County Auditor Clancy made his estimate on the following totals to be added: General county fund, \$3,500; school fund, \$2,288; hospital fund, \$2,283; bond and interest fund, interest on courthouse bonds, \$6000; hospital fund, \$15,600; road fund, valuation, \$7,477,432, less 19 percent, \$7,089,693.

HOME FRANCHISE SOLD.

Bids for the Home Telephone system were called for by the Supervisors for this morning, and they have been received. The bid of the Home Telephone Company was opened, the amount being \$101. There was no other bid. Arthur Wright of Los Angeles, attorney for the company, was present, but the franchise was not granted until the board had taken an adjournment and gone over the proposed contract. The ordinance provides that the pole lines shall be of good material, set up in a workmanlike manner, with the wires twenty-five feet from the ground. The company is to expend not less than \$2000 each year, and to construct not less than thirty miles of line. The company was granted a permit to com-

CONTRACTED DISORDERS.

Of all the diseases peculiar to men, contracted disorders are the most abused by out-and-out, half-and-half treatments, administered by good friends, druggists, doctors in general practice, and most of the worthless specialists. It is certainly interesting to hear the story of the average patient telling his experience with the different kinds of so-called treatment he has been up against. A large majority of our patients come to us with all the original disease and part or all of the complications resulting from delay and mis-treatment.

ONE BULLET STRUCK MR. GONZALES ON THE LEFT HAND, BADLY LACERATING THE MIDDLE FINGER AND EXTENDING EASTERN TRAIL.

Mr. and Mrs. Lew W. Irvine left this morning for an extended eastern trip. Mrs. Irvine goes primarily as delegate to the national W.C.T.U. convention to be held at Philadelphia, Pa. Plans and specifications for the new bridge at San Jacinto were submitted this morning by County Surveyor Pearson, and adopted by the trustees.

CORONA.

HAY UP IN SMOKE.

CORONA, Sept. 19.—Fire destroyed George L. Gay's barn, with over one hundred tons of hay, near Eden road yesterday. The loss was estimated at \$200, with only \$200 insurance. The Gay was away from home, and it is thought the fire was incendiary.

FATALLY SHOT DURING QUARREL.

ACCIDENT OR HOMICIDE ON A VENTURA RANCH.

William Sutyar Receives Load of Buckshot While Trying to Evict Trespassers—Told His Doctor He Alone Was to Blame—Information Wanted About Former Resident.

(SPECIAL CORRESPONDENCE OF THE TIMES.)

VENTURA, Sept. 19.—William Sutyar, a well-known rancher of this county, died tonight at the Bard Hospital from the effects of a gunshot wound in the groin. How he came by the fatal wound is still a mooted question which can only be settled by the closest investigation.

Sutyar was shot at his ranch last night at 8 o'clock. He said in his statements to the attending physician, Dr. Cunnane, that he alone was to blame for the trouble which resulted in the shooting. It is thought, however, that he was trying to shield one Richard Gordon, a guest, and in whose hands was the gun when the shooting took place.

The Sutyar ranch adjoins the Alford place near the Santa Clara River. It is a large place, and has been in the hands of the Sutyar family for many years. Frank Wheeler and another man, had been to Oxnard, where they had been drinking. They came back to the ranch, and later started out to shoot coyotes. They wandered into the Sutyar ranch, and Gordon's boys questioned them and asked what they were doing there. It is said that Wheeler became abusive and called the boy a bad name. He reported the matter to the sheriff, and the boy was taken to the spot again, the boy carrying a shotgun loaded with buckshot, which he, too, was hunting coyotes.

When the three approached Wheeler and the other man there was an instant opening of hostilities. Sutyar took up the argument for his boy, and Gordon sided strongly with Sutyar. A scuffle ensued, and Gordon went to blows. Then Gordon grew angry and attempted to take the shotgun from the boy to use on Wheeler. He was discharged, the full charge entering Sutyar's groin.

Another story is that Gordon resented the interference of Sutyar and turned on him. The gun was fired, and Sutyar was brought in to the hospital, and this morning the sheriff arrested Wheeler and placed him in jail.

Sutyar was 39 years of age, and leaves a widow and three sons.

NOT KNOWN TO FAME.

Who knows Bert Huntington, formerly a resident of this city? Also who knows James Huntington, alleged to be a resident of this place and a brother of the aforesaid Bert? Bert Huntington, a Mexican, was killed by the American consul agent at Torreon, Coahuila, Mex., would like to know something of the Huntington family. The Huntington family is the name of Bert Huntington, who wishes to marry, and, according to the law of this country, he must furnish proof that he is a man of good character, and if you will furnish me with some information as to his standing in your community, I will be very grateful.

Bert Huntington is well remembered here in a certain set. He was here several months ago, and posed as a place detective. He is a young man, and has been a piano player in the red-light district. At the time Huntington was here, he was in the city, and was known as James Huntington. He is now here. He gets his mail in care of James Huntington, but his name is not Bert. It is not known whether Bert Huntington was ever married or had a wife.

VENTURA BASEBALL BALL.

Ventura baseball team added another scalp to its record yesterday when it defeated the Hoegoe Flagg by the close score of 3 to 2. This is the seventh victory for Ventura out of twenty-one games played, and easily places the team in the lead in the State in the "bush" league. Young Frank Andrade pitched his second victory for Ventura. The victory was a reputation as a "phenom." The visitors could not touch him and went down before him like grass before a reaper. The battery set by Ventura was Gamble and Ireland, while Andrade and Bert Johnson played for the local team. The next game will be with the Devils.

BESIEGED A HOUSE.

(SPECIAL CORRESPONDENCE OF THE TIMES.) OXNARD, Sept. 19.—Nine bullet holes were seen in the door of a shack in the rear of the Germania Hotel, and a Mexican woman named Gonzales with a badly wounded hand, are the results of a murderous assault made by Phil Casternaro at a late hour last night.

Casternaro had a disagreement with another Mexican over the settlement of
